THE HISTORY

An original DJ vinyl since 1998 and still playing sets on Serato vinyl to present day. From party rocker nightclub sets to relaxed corporate background sets to showcase event scratch sets and video sets - DJ SR can cover it all.

From starting his DJ career in 2000 playing at Queen Mary student union bars as a warm up DJ, to then making his way into the Leicester Square nightclub circuit in 2002, moving to the A-list nightclubs in 2004. DJ SR then became one of the resident DJs at London's biggest weekly nightclub R&B party - for five consecutive years. In addition to all of this, he has also played to members of the Royal Family, High Profile Corporate and Fashion events to billionaires mansion parties - there really isn't a party scene in London DJ SR hasn't covered.

EXPERIENCE

THE DJ

OPEN FORMAT DJ

Each event varies for DJ SR on a nightly basis. For example: one evening event could be a predominantly 80s 90s Pop Corporate event "mix and blend" set and the next evening may require a Current Charts to Old Skool R&B nightclub party style of DJing with elements of scratching. With so many different events in London requiring a wide scope of music genres and diversity, DJ SR's track selection and crowd pleasing style of DJing makes him adaptable and versatile for any party or event!

THE MUSIC:

With DJ SR it's not **just** playing music.

DJ has alternative styles of Djing for various different types of events. His selection of music is more vast than the standard online record pools most DJ's use today. His years of digging vinyl and online research history have given him access to obtain mashups of all genres (upon standard versions of tracks) that fit and work eclectically for all styles of parties from bars to nightclubs to private events.

Party sets are standard: quick mixing, straight to the chorus no long edit versions of song with average of 2mins per song. Mixing is fluent (scratching only when suited to the type of event e.g no scratching for corporate galas or relaxed background sets).

Relaxed DJing: Ideal for corporate background mingle events, rooftop events, style of DJing; smooth mixing and transitions, no overpowering sounds or scratching. Examples: Trafalger Hotel Oil Tank corporate events, Asian Wealth Maison Assouline & Bentley Garage events, Siemens Krystal building food taster.

Showcase scratch sets: Featuring skills and tricks on turntables, examples inc. launch of city warriors boxing gym, hip hop set for Silverstone Formula 1 track, launch of Sama events space.

Video DJing - mainly for corporate galas with video screens usually with AV companies.
