## THE STYLE:

Having played consistently for over two and a half decades, his style of DJing is electric using originals, mashups - making him adaptable for many parties from from bars to private events.

Shom understands crowds and always reads the room in front on him. He doesn't play music to what he might think he wants to hear or personally likes. He only plays to what clients request/ venue music policy or what the guests are responding to (if free-play).

Relaxed DJing:

Ideal for corporate background mingle events, rooftop events, style of DJing; smooth mixing and transitions, no overpowering sounds or scratching. See latest video set at McLaren car event on website.

**Showcase scratch sets:** Featuring skills and tricks on turntables for quirky events that want something different in-comparison to sing a long songs.

**"Never have we heard such an electric mix of so many brilliant songs & genres of music mixed together in a live DJ set!"**
